FAMILY VIOLENCE

Gippsland Services

Family violence is against the law. It is not caused by random acts of anger. It is a choice for an individual to exert power and/or control over another. There are services across Gippsland which can support individuals and families to end the violence in their lives.

If you need emergency assistance
please call 000

24 Hour Support

Statewide services which can provide 24 hour assistance, counselling, referrals and access to crisis accommodation.
