Family violence includes physical, emotional, psychological, sexual or economic control or any behaviour that causes someone fear.

FAMILY VIOLENCE Gippsland Services

Family violence is against the law. It is not caused by random acts of anger. It is a choice for an individual to exert power and/or control over another. There are services across Gippsland which can support individuals and families to end the violence in their lives.

If you need emergency assistance
please call 000

Produced by Gippsland Women's Health
on behalf of the Gippsland Family Violence Alliance

24 Hour Services

State wide services which can provide 24 hour assistance, counselling, referrals and access to crisis accommodation.
